

4th Congress on Participation Research – 2026 in Siegen

Brief Information for Moderators

Dear colleagues,

you have kindly agreed to take on the moderation of a topic forum. We have received some queries about what the moderation role involves.

Our idea of moderating the forum is to provide a framework for the contributions gathered in the forum and, where needed, to guide the discussion of the contributions.

You are, of course, free in how you shape the moderation.

We already communicated the forum's number designation and time slot when we made the request (e.g. C22 on Friday from 10:45 to 12:15). The [programme](#) shows which contributions and contributors are represented there. We hope no further changes will occur (e.g. due to cancellations). It is certainly worth keeping an eye on the programme closer to the congress date. Room assignments will be announced later, both online and on site at the congress.

If you would like to get in touch with the presenters in advance and need support in doing so, please contact us!

Thank you very much for your contribution!

For the whole ZPE organising team,
Lena Bertelmann, Heike Krütt & Martin Reichstein
